

Dear parent

It is at times like this that we realise we need to adapt technology more than we have been doing. We at Hansraj strongly believe in using technology in the classroom but this time we shall be using technology at home as well. Your ward is a digital native and we are sure they would love to use technology in learning, and unless we as mentors keep pace with them it will not work very successfully. Let's put our efforts together and make sure no virus comes in between the mentor and mentee in their learning process. 😊

Welcome on board to online teaching.

team Hansraj is all out in full force to embrace children and not 'isolate' THEM from US. When the going gets tough the tough get going. This is what we believe in. From today we begin connecting with you online. The first session of online teaching will be for class 12 students of session 2020- 2021
